

# NEW Online Prostate Cancer Patient Experience Survey

---

## Investigators:

Dr. Dean Tripp  
Dr. Robert Siemens  
Dr. Jason Izard

## Help us distribute our brief online survey!

### Project Aims:

This brief online survey will help clinicians understand how biopsychosocial risk factors affect patient quality of life in men with Prostate Cancer. In particular, this survey examines factors such as the staging of the patients' cancer, their treatments, feelings of hopelessness, depressive symptoms, interpersonal needs, psychache, fear about death, cognitive awareness, and thoughts and behaviours associated with self-injury or death.

**Length of survey:** 15-30 minutes

### Call or email Phylicia at:

613-533-6000 ext. 75459 or [painlab@queensu.ca](mailto:painlab@queensu.ca)

We will send business cards that have the link to the online survey that can be distributed to patients or feel free to **distribute this link** directly:
